

## CONGRATULATIONS ON PURCHASING YOUR STALLION PLASTICS FEEDER!

Your feeder is the result of more than 25 years experience in producing leading edge agricultural products.

Our products are easy-to-use and are renowned for innovations that make your task on the farm simpler, faster and safer. All Stallion Plastics products are moulded from the highest quality materials available in the world. Our 100% recyclable polyethylene is exceptionally durable, tough and rigid, has high chemical and water resistance, and offers maximum UV radiation protection. The feeders feature rounded edges and smooth corners for safety and easy cleaning. All steel components are hot dip galvanised for long maintenance-free life. With the right care you will receive many productive years of use from your Stallion Plastics feeder.
